

CURRICULUM VITAE

Name: Aung Khant Soe (67127)

Program: Business Technology

Personal Profile

I am a motivated Business Technology student with a strong interest in combining business strategy with modern digital tools. I am eager to learn how technology can improve efficiency, decision-making, and innovation in organizations. With a curious mindset and a disciplined approach to my studies, I aim to build a solid foundation in both management and technical skills.

I consider myself responsible, adaptable, and willing to take on challenges. Through my academic journey, I continue to develop my communication, problem-solving, and teamwork abilities, preparing myself for real-world business environments. My goal is to become a professional who can bridge the gap between business needs and technological solutions.

I am committed to personal growth and lifelong learning. I believe that continuous improvement and practical experience are key to success in today's fast-changing world. With dedication and focus, I strive to contribute positively to any team or organization I become part of.
